> As a medium for English, American and Australian ADVERTISEMENTS of good, anitable for the tropics, India as well as Caylon, the Straits Settlements, Javas and West Indies or connected with agelculture the Tropical Agriculturist stands unrivalled, the work being constantly in the hands of Native as well as European and American agriculturists, Being a Monthly Periodical, the Tropical A riguituwist lies on the table and is very often reforred to during such month, a fact which advertisers will know how to appropiate.

Mr W. T. Thisolton Dyer, F.Lu., Assistant Director of Kew Gardons, writing of the T. A., refers to it as 'an astonish repertory of everything relating to the economic botany of the Hast.

WHAT VITALITY MEANS.

Vitality is your measure of force, or power. Thin babies and feeble old persons have little of it. When the system is unable to assimilate the right kind of food, vitality becomes low.

Scott's Emulsion

is above all other remedies in giving vitality. It makes no difference whether the emaciated person is in babyhood or in old age. Whenever food fails to nourish, Scott's Emulsion will be found the most effective remedy for overcoming emaciated tendencies. A NEW MUNROE DOOTRINE FOR THE FAR EAST.

A new Monroe doctrine for the Far East the latter vessel. is proposed in the Forum by Senator Proctor, who says, 'We are bound by every consideration of civilisation and humanity to retain the Philippines, He concludes the article by making five propusals, which if adopted will, he thinks, enable Britain and the United States to replace the waning imperialism of old Rome by a new imperialism destined to carry the world-wide principles of Anglo-Saxon peace and justice liberty and law. His five suggestions are

(1) A Treaty of Arbitration which nations should be invited to join, but which in the first case should be negotiated between the United States, Great Britain,

(2) That those nations should count coal as much contraband of war as gunpowder. (3) All countries acquired by the United States should be thrown open to the commerca of the world on equal terms. (4) The United States, Great Britain, and

Japan should proclaim a new Monroe Doctrine applicable to China; and co-operate with that country in preventing acquisition of territory there by European Powers. (6) The United States, Great Britain, and the Netherlands should proclaim and maintain a new Monroe Doctrine applicable to the vast islands of the Indian Archipologo.

TEBRAU PLANTING CO., LIMITED Mesers John D. Humphreys and Son, the General Managers, have received the o following report from Mr M. Larken for the six months ending the 31st October,

Gambier Plantations.—I regret to say Jarvis the price has been extremely low during Hill ... \$5 45 per picul in May, to \$5.05 in October. Reedman and the profit for the six months only Peters amounts to 8605.23, less than \$1 per picul on the Pls. 656.86 sold. The best returns Evans comparatively have been from the new Hugo plantations purchased at the beginning of M'Kenzie the year. Milburn, which is our chief Chimer, not out plantation, and should give as much as all the others together, has been very unfortunate, for the plants were attacked by a kind of caterpillar that destroyed a large amount of leaf; however, they have now disappeared, and a fresh crop of leaves has some on, so I hope it will show better re-

cults for the future. We have had an unusually hot and dry season, which no doubt partly accounts for the small amount of crop.

Mount Austin Plantation -All is going on well here. I am glad to say. We have planted up the first block of 150 acres, and are now going on with the second. The young coffee planted out six months ago is looking extremely well, many of the plants being 2 to 3 feet high. The young para rubber plants are also growing extremely well. We have had considerably more sickness during these six months than we St. Joseph's C. Club (second eleven) and had at first, owing no doubt to the excessive, unusual, and long-continued periods of intensoly hot weather. We have often but no deaths. I am glad to say. My assistant, Mr Robinson, has suffered a great deal from fever, and I have had two or those attacks myself, but on the whole, I consider we have been very fortunate, considering the usual disastrous outbreaks of Besides the five open ports in Japan there fever and dysentery that accompany the are more than ten special ports of imports opening of new plantations in the Malay and exports, so-called. These ports are for peninsula, Borneo, and Sumatra.
